-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 4, 5, 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 4, 5, and 7 are indefinite as they depend from “claim 0”. They have been interpreted as though they depend from claim 1.

### *Drawings*

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the embodiment in which the tongue and removable extension are cylindrical (claims 14 and 28) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must

Art Unit: 3611

be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 4-12, 15-25, 29 (as understood) are rejected under 35 U.S.C. 102(b) as being anticipated by DeRoule et al.

DeRoule et al. discloses A trailer tongue extension assembly comprising:

a tubular trailer tongue 100 having at least one open end and an internal channel at least partially along a longitudinal axes from the open end, a tubular removable extension 160 having a mating end structured and arranged to slip fit into the open end of the trailer tongue; a first electrical connector 180 disposed within the trailer tongue channel; and a second electrical connector 200 disposed within the removable extension; wherein the first and second electrical connectors engage and disengage as the removable extension is installed or removed from the

trailer tongue, wherein the first electrical connector and the second electrical connector are substantially enclosed within the assembly, wherein the extension slip-fits into the tubular trailer tongue, further including an attacher 140 configured to attach the removable extension to the trailer tongue, wherein the first electrical connector and the second electrical connector are mated electrical plugs, wherein the first electrical connector and the second electrical connector are substantially enclosed within the assembly, wherein the first electrical connector is keyed to mate only with the second electrical connector of the extension. , wherein the first electrical connector is inaccessible from an open end of the trailer tongue without the trailer tongue extension. , further including a trailer electrical harness 260 connected to the first electrical connector and a towing vehicle electrical harness 280 connected to the second electrical connector , wherein when assembled, the vehicle electrical harness provides electricity to the trailer electrical harness, wherein engaging the attacher when the tongue extension is removed from the open end of the trailer tongue prevents mating between the first and second electrical connectors, wherein the attacher ensures the first electrical connector and the second electrical connector remain mated when the tongue extension is slip-fit into the opening of the trailer tongue.

***Allowable Subject Matter***

6. Claims 2-3, 13-14, 26-28, 30-31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references disclose trailer tongues which are extensible.
